SHOW-ME ECHO
(Extension for Community Healthcare Outcomes)

URBAN AND SPECIALTY DERM ECHO

IMPROVING SKIN HEALTH AND DISEASE OUTCOMES IN URBAN AREAS BY EDUCATING PROVIDERS

This ECHO will empower providers to learn and use evidence-based practices that are informed by social determinants of health. Washington University specialists will offer ECHO learning sessions from 7 to 8 a.m. on the second Wednesday of the month, beginning with the following dates and topics:
• February 12: Acne
• March 11: Hidradenitis Suppurativa and Other Skin of Color Topics
• April 8: Melanoma

HOW DOES THIS ECHO WORK?

Providers in Missouri will join interactive online video conferences with dermatology experts. Together they will share and discuss clinical cases related to such additional topics as:
• Common benign skin growths
• Non-melanoma skin cancer and criteria for Mohs surgery
• Manifestations of rheumatologic disease
• LGBTQ dermatology needs
• Gynecologic dermatology
• Cutaneous manifestations of cancer therapies
• Cutaneous disorders common in solid organ transplant patients
• Cutaneous T-cell lymphoma
• Pruritus

WHAT DOES THIS ECHO OFFER?
• No cost CME for health care professionals
• Collaboration, support and ongoing learning with specialist physicians and other experts
• Patients get better care in their community
• No cost to participating sites or individuals
