(Extension for Community Healthcare Outcomes)

ORAL HEALTH ECHO

ORAL HEALTH PROVIDERS GAIN EXPERTISE
Oral Health ECHO supports and educates primary oral health care providers in the delivery of quality and effective dental care for patients across the state of Missouri by engaging in dialogue between an expert panel of professionals and Missouri dental care providers.

WHY AN ORAL HEALTH ECHO?
A number of national studies have shown an increase in dental-related emergency department (ED) visits in recent years. In Missouri alone, there was a 350 percent increase in ED visit rates between 1994 and 2014.

THE ORAL HEALTH ECHO WILL HELP DENTAL PROVIDERS:
• Keep patient care local when appropriate
• Share evidence-based knowledge and best system-based practices
• Provide a safe and nurturing open forum for exchanging knowledge and sharing experiences
• Empower, support and educate rural providers, systems and care teams

READY TO JOIN? Visit showmeecho.org

Missouri Telehealth Network
University of Missouri
WHO SHOULD JOIN?
- FQHC providers
- General dentists
- Dental hygienists
- Dental assistants
- Fourth-year dental students
- School nurses
- Pediatricians
