Telemedicine ECHO

EXPANDING KNOWLEDGE ABOUT RAPID CHANGES IN TELEMEDICINE
The Heartland Telehealth Resource Center (HTRC) and Missouri Telehealth Network (MTN) are offering a Telemedicine ECHO for providers in Missouri, Kansas and Oklahoma. The ECHO will be held every Tuesday from 9 to 10 a.m. via interactive online videoconferences. They will use case-based learning to address such topics as reimbursement, operations, regulations, best practices and more. Sessions will offer a brief didactic opening, followed by a question-and-answer period.

WHAT DOES THIS ECHO OFFER?
• No cost continuing education for professionals
• Collaboration, support and ongoing learning with telehealth leaders and physician experts
• Patients get better care in their community
• No cost to participating sites or individuals
