EXTENSION FOR COMMUNITY HEALTHCARE OUTCOMES

ECHO AUTISM: PRIMARY CARE

BRINGING BEST PRACTICE AUTISM CARE TO PRIMARY CARE CLINICIANS

Many communities do not have access to meaningful autism best practices. Extensive wait times for specialists to help families with their questions about autism, development, and behavior can be frustrating. Learn about best practices and evidence-based care for children with autism and developmental/behavioral concerns.

The ECHO Autism program occurs **every 1st and 3rd Wednesday of the month from 11:45 a.m. to 1:15 p.m. CST.**

MEET OUR HUB TEAM

Kristin Sohl, MD, FAAP

Pediatrician specializing in autism, development, and behavior
