

HEPATITIS C ECHO

ELIMINATING HEPATITIS C IN MISSOURI BY IMPROVING ACCESS TO CARE

EMPOWERING AND SUPPORTING HEALTHCARE PROFESSIONALS TO EFFECTIVELY TREAT PATIENTS

This ECHO is dedicated to the treatment of patients with all types of liver diseases, especially viral hepatitis and fatty liver disease. ECHO uses videoconferencing to connect interdisciplinary teams of specialists and subject matter experts. Together with the team, participants will learn to develop advanced skills and best practices through collaboration and case-based learning in an “all teach, all learn” environment. Join **every 1st and 3rd Friday of the month from noon to 1:00 p.m.**

PARTICIPANTS WILL BE ABLE TO:

- Screen for and identify Hep C in patients
- Prescribe the right medications to care for Hep C
- Utilize best practices for Hep C dx and tx
- Detect and make referrals to treat health concerns that are related to Hep C
- Serve as the local Hep C expert in their clinic and their part of the state
