

SHOW-ME ECHO

Extension for Community Healthcare Outcomes

ASTHMA ECHO

BRINGING BETTER ASTHMA CARE TO PEOPLE IN THEIR LOCAL COMMUNITY

IMPROVING ASTHMA CARE. CHANGING LIVES.

Show-Me ECHO's Asthma ECHO offers 3 workforce development programs to improve asthma care across Missouri.

Each program uniquely prepares individuals for specific focus areas of asthma care intervention, but ultimately work comprehensively.

Asthma 1, 2, and 3 build upon one another to establish knowledge foundations, develop skill sets, and increase ability to provide exceptional asthma care.

These development programs prepare and educate healthcare professionals and community members to implement expert asthma care for their unique patients and practice.

ASTHMA 1: ESSENTIALS

All professionals caring for people with Asthma

- Physicians
- Nurse Practitioners
- Physician Assistants
- Registered Nurses
- Respiratory Therapist
- Care Managers
- School Nurses
- Community Health Workers

Asthma 1 sessions are 4-weeks long, offered 6 times per year (Jan., Feb., May, June, Sept. OR Oct.) and are held every Tuesday from noon to 1 pm.

ASTHMA 2: QI/MOC

*After completing Asthma 1

- Physicians
- Nurse Practitioners
- Physician Assistants
- Care Managers
- Pharmacists
- Quality Improvement Staff
- Population Health Managers
- Other professionals caring for people with asthma

Asthma 2 meets a total of eight Tuesdays, from noon to 1 p.m., in March, April, July and August.

ASTHMA 3: COMMUNITY

*Recommended after Asthma 1

- Public Health Workers
- Community Asthma Educators
- Home Environmental Assessors
- School Nurses
- Clinic Staff
- Care Managers
- Community Healthcare Workers
- Others professionals in asthma care settings

Asthma 3 is a yearlong ECHO which meets in March, April, July, August, and November for a total of 10 sessions.
